- #4-40 × 5/16" self threading screw (2).

Mounting round, "hockey puck" Temptran™ in connection head

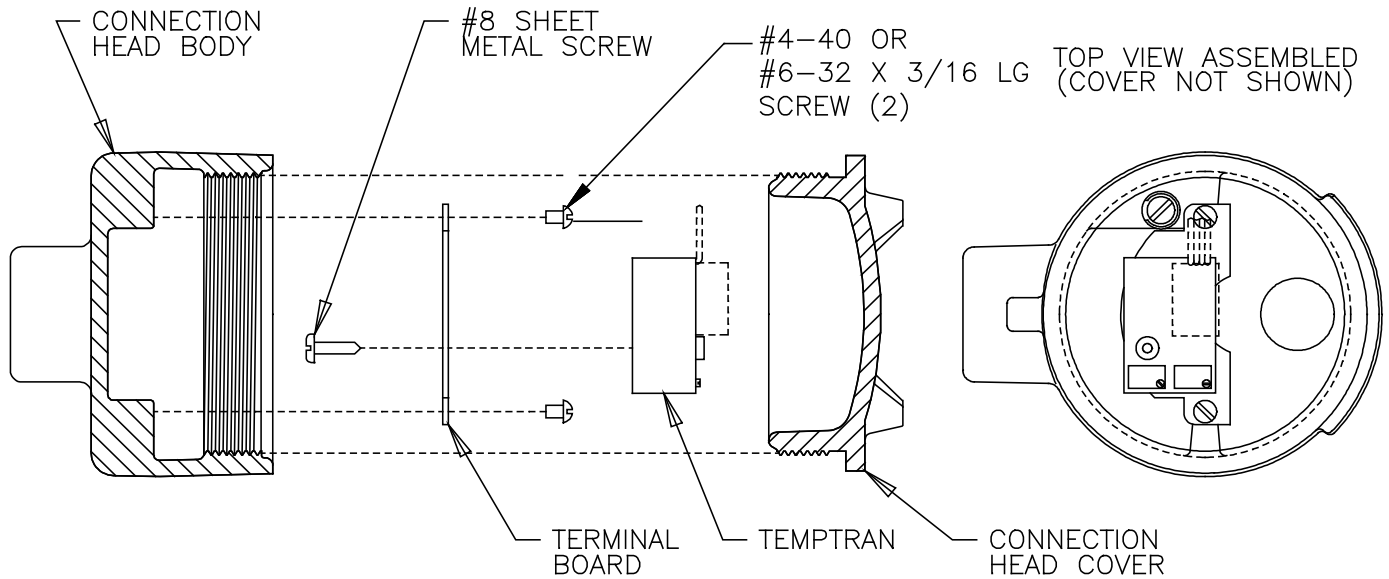

Procedure

The AC101376 mounting kit, round Temptran transmitters and connection head are assembled following the instructions below.

Step	Action
1	Unscrew cover from connection head body.
2	Mount round, hockey puck style Temptran to terminal board using #6 × 3/8" long screws and kep nuts.
3	Mount Temptran/terminal board assembly to connection head body using #6 × 3/16" long screws.
4	Make necessary wiring connections per Temptran wiring instructions.
5	Screw cover back onto connection head body and close tightly.

Temptran™/Explosionproof Connection Head Assembly, Continued

Mounting miniature, rectangular Temptran™ in connection head

Procedure

The AC101376 mounting kit, rectangular Temptran transmitters and connection head are assembled following the instructions below.

Step	Action
1	Unscrew cover from connection head body.
2	Mount miniature, rectangular Temptran to terminal board using #8 sheet metal screw.
3	Mount Temptran/terminal board assembly to connection head body using #6 × 3/16" long screws.
4	Make necessary wiring connections per Temptran wiring instructions.
5	Screw cover back onto connection head body and close tightly.
